

Hello!

A little about me... My name is Christine Grant and I am Washington State's Vice President of Programs! As a team, our state officer goal was to increase member participation throughout our state, so I have created this breakout box activity for FCCLA advisers like **YOU** to implement into your classroom. The purpose of this activity is to promote FCCLA's 8 National Programs and help members of your chapter learn about the national programs in an engaging and educational way. Never hesitate to reach out to me with questions you may have at: cgrant@wa-fccla.org

So What is a Breakout Box?

Similar to an escape room, with a breakout box students work together to solve puzzles to "Break out of the Box". This box is set up with 4 different locks that are unlocked with different types of puzzles unique to that lock. For more information on breakout boxes, check out: www.edteachteam.com for more info.

What Supplies Will I Need For This Activity? What's The Cost?

It'll just take a few online orders to get all the materials for these boxes! I have listed all the links to the cheapest places to find the materials. All printables can be found in the printables folder! These boxes cost anywhere from \$85 (4 complete boxes) - \$125 (6 complete boxes).

Plus, there is funding available through Perkins to receive reimbursement for the cost of these boxes! Contact Michelle Spenser from OSPI at: michelle.spenser@k12.wa.us . Contact your school's CTE Director to make sure your school qualifies for Perkins funding. Thank you Michelle Spenser and OSPI for this funding!

Below is the supplies you will need to complete this activity in your classroom! Don't forget to post pictures to Instagram or Facebook using the hashtag #WAFCLANP to get featured on our social medias! Happy Breakout Boxing!

Supplies:

Material	Description	Link
Box	The matching game will be put inside this, and is what the whole game is centered around!	dollartree.com
Lockout Hasp	This will attach to the outside of the box and is where the locks will connect.	homedepot.com
Key Padlocks	This lock is for the Paragraph Fill-in-the-blank puzzle. Once students complete the puzzle, teachers give teams the key to solve.	dollartree.com
3 Digit Resettable Lock	This lock is solved by the number dial given to teams after they solve the Financial Fitness word puzzle.	amazon.com
5 Character Resettable Lock	This Lock is for the Word Search, once students complete the word search, they need to come up with the 5 letter word the puzzle was about (Power)!	amazon.com
Directional Lock	This lock is for the National Program maze. When students find a way out of the maze, they will read the way they went through to find directions for the lock.	amazon.com
